Environmental Influences on Neurodevelopment: Translating the Emerging Science into Public Health Policy

A Workshop at the Neurotoxicology Conference

Wednesday, November 2, 2011

Research Triangle Park, NC

Box lunches available at noon

8:00 AM- 4:00 PM

Join the Neurotoxicology Conference sessions in the morning for state of the science on environmentally triggered developmental disorders with a focus on endocrine disruption and sex differences in autism, ADHD and schizophrenia.

In the afternoon workshop, national experts from diverse sectors will highlight the latest research on associations between environmental exposures and early neurodevelopment as well as the implications for prevention-based public health policy. This meeting is intended to catalyze cross-discipline discussions among leaders in environmental, experimental and epidemiologic fields as well as those involved in public policy and environmental health advocacy.

The workshop is open to the public. Faculty, students, policy makers, community members and others concerned with environmental influences on neurodevelopment and public health are particularly encouraged to attend.

Featured Speakers:

Sue Schantz, Ph.D., University of Illinois

*Martha Herbert, M.D., Ph.D, Harvard Medical School/Massachusetts
General Hospital*

Tom Zoeller, Ph.D., University of Massachusetts

*Richard Denison, Ph.D., Environmental Health Fund and Campaign for
Safer Chemicals, Healthy Families*

Kay Hagan, U.S. Senator from North Carolina (invited)

Beth Mettersmith, MomsRising

Donna Ferullo, Autism Society of America

Elise Miller, M.Ed., Collaborative on Health and the Environment

To register, please go to:

www.disabilityandenvironment.org

**Space is limited, so to ensure your spot please pre-register! A registration fee of \$35 includes lunch. Scholarships are available.*

Event Details:

Date: November 2, 2011

Location: Sheraton Imperial Hotel and Conference Center
Research Triangle Park, NC

Time: 8:00 AM- 4:00 PM

Box lunches and other refreshments will be served.

This workshop is being held in conjunction with the 27th Annual International Neurotoxicological Conference — see www.neurotoxicology.com for more information or to register for other parts of the meeting.

This event is co-sponsored by The Autism Society and the Collaborative on Health and the Environment's (CHE's) Learning and Developmental Disabilities Initiative.
